

SPRING PROJECT 2024

This term Badger class will be looking at the Mayan Civilisation and our project this term allows the children to explore any area of that in greater depth.

It could involve creating a Mayan carving, or clay work...

..or it might be learning more about the Mayan ball game that could be a matter of life or death to some...

Or perhaps it is building a Mayan temple, or writing about home life, or one of their many gods...or about chocolate!

As usual the project can be undertaken using any format, writing, poetry, drawings, power points, models, the choice is yours.

Projects need to be in for the week commencing 18th March.
